Rose

FESTIVAL

Karlovo, Bulgaria

Rose Festival is one of the most remarkable celebrations in the town of Karlovo, which takes place in May, dedicated to beauty and flowers, to the spring and the fragrance of the precious Bulgarian rose. The tradition of celebrating the roses goes back to the early years of the XX century and continues to this day. During the day of celebration, the town is filled with beauty and humor, dances and songs with irresistible aroma of Her Majesty - the Rose. The celebration begins with rose picking ritual in the gardens around the city with folklore music of bagpipe orchestra while young people in national costumes demonstrate the gathering of rose petals. The guests are greeted with bread and salt according to the old traditions.

The Queen of Roses appears and greets all the guests and invites them to pick roses from the gardens. After that everybody is invited to join at the "horo" (Bulgarian national dance). From the gardens, the festival is transferred to the city center, where a choirs and groups perform their songs and tourists can walk among them, to listen and to take pictures. With colorful procession Queen of Roses enters the city center followed by folklore groups. On the "Alley of the Roses" locals present crafts and industries associated with the rose. The celebration continues with a demonstration of rose boiling in the Historical Museum where tourists get to know the process through which the fragrant flower becomes the worldwide famous rose oil. Authentic dishes from the eighteenth century are used during the process. Guests try rose liquor and rose jam.

Truffles Preparation

Truffles are a variety of edible fungi growing underground, mostly besides roots of trees such as oak, beech, poplar, willow and elm. They are shaped like tubers and they are often compared with potatoes when it comes to their appearance. They usually grow from the size of a cherry up to the size of an apple, but sometimes significantly bigger specimens are found (like the famous Zigante Millenium weighing 1310 g). In the culinary world the most popular are the two basic varieties: black and white truffle.

Truffle searches (15.03.-15.09.)

THE EXPERIENCE OF HUNTING THE MOST EXPENSIVE TROPHY
